CAP-5	Bug	High	Transfer Funds page allows submission without entering amount	Open

Jira Ticket - CAP-2

Severity/Status: Medium / Open

Module: Transfer Funds

Summary: User can transfer funds from an account to the same account

Steps to Reproduce

- Login to ParaBank
- Navigate to Transfer Funds
- Select same account in From and To dropdown
- Enter amount and submit

Expected Result

System should prevent transfers to the same account.

Actual Result

Transfer is allowed even when source and destination accounts are identical.

Business Impact

Incorrect banking transaction validation.

Jira Ticket - CAP-3

Severity/Status: High / Open

Module: Bill Pay

Summary: Bill Payment form accepts payment amount as 0

Steps to Reproduce

- Open Bill Pay
- Enter valid payee details
- Enter amount = 0
- Submit payment

Expected Result

Amount must be greater than 0.

Actual Result

Application accepts amount 0.

Business Impact

Invalid payment transaction accepted.

Jira Ticket - CAP-4

Severity/Status: Medium / Open

Module: Bill Pay

Summary: Bill Payment form accepts negative payment amount

Steps to Reproduce

- Open Bill Pay
- Enter payee details
- Enter negative amount
- Submit payment

Expected Result

Negative values should be rejected.

Actual Result

Application accepts negative payment amount.

Business Impact

Financial validation failure.

Jira Ticket - CAP-5

Severity/Status: High / Open

Module: Transfer Funds

Summary: Transfer Funds page allows submission without entering amount

Steps to Reproduce

- Open Transfer Funds
- Select accounts
- Leave amount blank
- Submit

Expected Result

Amount field should be mandatory.

Actual Result

Transfer request is submitted without amount.

Business Impact

Potential transaction processing issue.
